Town of Harpersfield

Transfer Station Guidelines

Harpersfield Transfer Station stickers are available at your Town Hall. You must be a member of the Towns of Harpersfield, Kortright, Stamford or the Villages of Stamford or Hobart. Anyone outside these towns and villages are not permitted to dump their garbage at our Transfer Station.

The sticker is to be placed on the outside of any driver's side window. Please wash the window prior to placing the sticker on the window. Keep in mind that if the window rolls down the attendant may not be able to see it so, please keep it visible.

If you do not have a sticker, you will not be permitted to dump your garbage.

The Town of Harpersfield has rules in place for the safety of our customers and employees. Plus, many of these rules are required by the County for safe and reliable refuse placement and elimination. We ask that all our customers follow the rules.

Please come into our parking lot slowly and be aware of all cars, trucks and people. Follow the traffic flow to the right.

If you do not know where to put your items, please see one of the employees and they will let you know where it goes.

The C&D is for household C&D. We limit the amount to a 55 gallon drum. The limit is due to the amount of county dumpsters we get during the week coupled with all our customers having the opportunity to get rid of their C&D. The Town pays for C&D to Walton. If you have a large amount of C&D, Oneonta Casella Waste Systems (75 Silas Lane) and Walton Solid Waste Management Center & Compost Facility (32230 State Hwy 10, Walton, NY 13856) will take it but there is a fee.

Mattresses will only be taken if you break down the mattress and box spring so that the metal goes into the metal bin and the remaining portion (wood and fabric) goes into C&D. If you have multiple mattresses, Oneonta Casella Waste Systems (75 Silas Lane) and Walton Solid Waste Management Center & Compost Facility (32230 State Hwy 10, Walton, NY 13856) take them but there is a fee.

The Town reserves the right to shut down the Transfer Station at any time if the safety at the sight is compromised and/or equipment is not working. The Town will work to resolve the problem and open the Transfer Station as quickly as possible. We will provide information on our web site, town hall and the official Town of Harpersfield Facebook page as quickly as possible.

Town of Harpersfield

Transfer Station

Recycling Rules

PERMIT REQUIRED TO USE THE FACILITY

See your Town Clerk for Permit
The dates and times that the Transfer Station is open are listed on the Transfer Station Sticker
Mon-Closed, Tues-9am-4pm, Wed-12pm-4pm, Thurs-Closed, Friday-9am-4pm, Sat-9am-4pm, Sunday-Closed

All Black Bags Must Be Opened upon disposal
